A SINGLE DEATH

AND SEVENTY-FIVE NEW CASES AT JACKSONVILLE.

PEOPLE GROWING HOPEFUL AS COLD WEATHER APPROACHES.

The Death Rate at Sand Hills Hospital Remarkably Small Compared With the Number of Cases Which Have Been Sent There—But Two Deaths So Far in East Jacksonville—Frost at Mobile.

JACKSONVILLE, Fla., Oct. 6.—Only one death from yellow fever was reported Thursday, but there were seventy-five new cases. The people are growing more hopeful as cold weather approaches.

"No deaths at the Sand Hills to-day," said Dr. Solace Mitchell Thursday to your reporter's interrogation. "Do you know," continued the doctor, enthusiastically warning up on the subject, "that the record of death at the Sand Hills has been prominently small when compared with the number of cases, and had cases, too, which have been sent there? I wish also to give you newspaper men another fact, and that is, not a single nurse or employe attached to the Sand Hills hospital has contracted yellow fever since the epidemic began.

Another particularly desirable spot to be sick in must be a large negro settlement east of East Jacksonville proper, called by its people "East," and known to the nearer white neighbors as "Timbuctoo." In a population of about fifteen hundred or two thousand there have been quite five hundred cases of fever, mostly kept dark, and all but one or two "doctored" by the family. Only two deaths have occurred in this section; one had a physician, the other had none. But certain it is that they sicken there and recover with perfect ease and safety.

The six cases of fever in the county jail are reported by Deputy Vincent as all getting well.

The question of fumigation throughout the city is now being considered.

Dr. Porter, who has charge of this matter, says it is useless to try to do anything until the epidemic is declared off. Then a house to house inspection and fumigation will be made. He says that it will take fully two months to accomplish this and that it will cost \$100,000 or more. It will be done thoroughly so as to avoid all danger of an outbreak next year.

The orange shippers throughout the state are beginning to feel blue over their prospects. A proposition has been made to establish a line from Sanford, in Florida, direct to Savannah. General Manager Sorrell, of the Ocean Steamship company, and Traffic Manager Owen, of the Savannah, Florida & Western road, were before the sanitary board in Savannah Tuesday. The claims of Florida people who want to get an open freight line north were discussed, but it was decided to keep the present Savannah quarantine rigidly in force. The orange growers will have to wait till frost to ship to Savannah.

Fernandina has a Howard association formed of members who went through the yellow fever epidemic in that town in 1877. St. Augustine had 300 cases of dengue on October 1.

Refugees will not be allowed to return until two heavy frosts have visited us, and perhaps not until after January 1.

LATER.—Up to noon Friday three deaths and thirty-eight new cases had been reported.

Frost in Alabama.

MOBILE, Ala., Oct. 6.—A light frost was observed here Thursday morning.

THE SENATE TARIFF BILL.

The Minority, Minority and the Beck Reports Upon It.

WASHINGTON, Oct. 6.—The senate committee on finance in its report on the substitute tariff bill refers to the demand for revision of the tariff, and the public demand for a reduction of revenue, and to the danger from the immense surplus, which could have been reduced by the purchase of government bonds. The inaction of those who have demanded reductions is criticised, and the Mills bill is referred to as likely to increase rather than reduce the revenue. The committee claims that it has been influenced by a desire to reduce the revenues, and at the same time preserve the American system.

A minority report signed by Senators Harris, Voorhees, Vance and McPherson declares that they were not consulted till the substitute was reported on September 25; that manufacturers and members of trusts were heard and the great body of the people ignored; that the substitute is to maintain private revenues by increasing the taxation on all necessities of life, to perpetuate the glaring discriminations which makes the present high tariff the nursing mother of trusts. It claims that the customs revenue can only be reduced in two ways—in the direction of free trade, or in the direction of free plunder.

Senator Beck makes an individual report in which he defends the Mills bill as against the substitute, which aims to increase the costly goods to the home of the consumer and close the markets, to plunder the people, by going to the extreme of protection.

A Woman and Three Children Drowned.

PRINCESS ANNE, Md., Oct. 6.—A boat containing eight persons was upset Thursday in the Wicomico river. Mrs. Kinnemon and her infant, and two children of Mrs. Phillips, all of Dorchester county, were drowned.

SOCIALISTIC ORGANIZATION.

The London Times' Story Disputed by Two German Editors of New York.

NEW YORK, Oct. 6.—Referring to the statement of M. De Blowitz in the London Times to the effect that a new Socialistic organization of blood-thirsty principle has been organized with head offices in New York, Mr. Alexander Jonas, editor of the New Yorker Volks Zeitung, says:

"It is all nonsense; the Socialistic party is organized all over the world, but they have no headquarters in any city or country. They do not need any new organization, for the one which exists serves their purposes. As for the blood-thirsty idea, that is all moonshine and a hoax. I have no knowledge of any such movement, and if anything of the kind in on foot I would be one of the first to hear of it. It is a pure invention on the part of the London Times correspondent or else he has been hoaxed by some one.

"The Socialists, or Internationalists, are thoroughly organized. They have local executive committees in every civilized country from Australia to England, from the United States to Russia. That is a well known fact, and one we have not disguised nor hidden. As to the story that a new and dangerous society has been formed I do not believe it. I know nothing of it."

Another editor in the same office remarked that some Belgian delegates to the American Knights of Labor came to the United States on the steamship Anrania, which brought Falloux, the Socialist, to this country. They had recently returned home, and it might be that their presence here led to the story, as they could easily be mistaken for Socialistic delegates.

He said also that there has recently been an international convention in Belgium, and Frederick Engels, a colleague of Carl Marx, had been in America on a pleasure trip, and returned to Europe a few weeks ago. Engels had been a secretary of the old international society, which disbanded at the congress of The Hague, some twelve years ago. You may depend upon it that all of these visits are made a basis for the London Times' story.

At the headquarters of the Socialists, the idea of a new organization was ridiculed.

MRS. GARRETT TO HANG

January 24 Next for the Murder of Her Two Step-Daughters.

MEDINA, O., Oct. 6.—Mrs. Mary L. Garrett, who was convicted last week of the murder of her two imbecile step-daughters, was sentenced to hang on January 24, 1889.

Mrs. Garrett was the second wife of an old farmer. The victims of the crime were between thirty and forty years of age. One night in November last, the farm-house took fire in the room where they slept. Neighbors came and extinguished the flames, when it was discovered that the room had been saturated with coal oil. Mrs. Garrett was arrested when the evidence showed that she had fired the house. She has maintained a stolid indifference during her trial, and when the judge asked her if she had anything to say why sentence should not be passed, she made no reply. Mrs. Garrett has a babe of eight weeks, which was born in jail, and it will be taken to the penitentiary with her, to remain until after the execution.

Serious Accident in a Tunnel.

CLEVELAND, O., Oct. 6.—Five workmen were seriously burned by an explosion of accumulated gases in the new water works tunnel now being excavated in this city, at 3:40 o'clock this morning. The tunnel is lit by incandescent electric lamps, and Electrician Doyle was extending the circuit of lights further in the passage when an electric spark from one of the wires ignited the gases and caused an explosion. Electrician Frank Doyle, Foreman James Walsh and Diggers Frank Needham, George Spierago and Dennis Bonner were severely burned about the hands and face. Doyle is the most seriously injured. The wounded were all taken to the city hospital and will, it is believed, recover.

Rice Crop Menaced.

COLUMBIA, S. C., Oct. 6.—June rice is now in the milk, and a first class frost which is threatened every night now, would kill it. If frost does not come in a week the rice will have time to mature. The heavy rains first crippled this crop, and then came the flood, which seriously hurt it. The loss has been considerable in ripe rice from the frequent handling which was necessary to dry it. Rice sprouted badly, and stacked rice has been now burned, which entails a loss in the deterioration of the rice. Until the rice has been placed in the hands of the millers the extent of the loss cannot be known. The planters, however, are sure they will not reap one-half the crop they expected before the rainy season set in.

To Take Strikers' Places.

KANSAS CITY, Oct. 6.—Thirteen gripmen and the same number of conductors, who had been discharged from the Kansas City cable road, left for Chicago to take the places of the North Side men who are expected to strike Saturday. The Yerkes syndicate has an agent here and he is taking all men who offer themselves without regard to their past records or the reasons for their discharges.

A Domestic Tragedy.

WATERLOO, Iowa, Oct. 6.—H. E. Andrews Thursday shot and dangerously wounded his brother-in-law, Blufford Koeger. Andrews' wife, who married him in April and left him four weeks after, had brought suit for divorce, and it was during a call at her brother's house, to persuade him to live with him again, that he became enraged at Koeger and shot him.

Championship Base Ball Games.

NEW YORK, Oct. 6.—President Day, of the New York club, and Von der Ahe, of the St. Louis club, met last night and arranged the following schedule of base ball games, which are to decide the "championship of the world." At New York, October 16; Boston, 17; New York, 18; Brooklyn, 19; New York, 20; Philadelphia, 21; St. Louis, 25, 26 and 27.

Bookkeeper Charged With Embezzlement.

CHICAGO, Oct. 6.—W. H. King, bookkeeper for the Brunswick-Balke-Connell company, was arrested Thursday night on a warrant charging him with having embezzled \$4,000. The officer also had a warrant for a man named Hilger, a collector for the company, but was unable to serve it because Hilger had left the city early in the day.

SHERMAN'S PLAN.

WHAT AN EMINENT NOVA SCOTIAN HAS TO SAY ABOUT IT.

ATTORNEY GENERAL LANGLEY DEFENDS ERASTUS WIMAN.

He Believes the Ultimate Destiny of Canada Is Either Imperial Federation or Annexation to the United States, and Strongly Favors an Unrestricted Commercial Trade Policy.

OTTAWA, Ont., Oct. 6.—Attorney General Langley, of Nova Scotia, who is attending the supreme court here, comes to the rescue of Erastus Wiman, who of late has been pretty severely handled by a portion of the Canadian press regarding his correspondence with Senator Sherman on the subject of commercial union, under which guise he is charged with attempting to promote a political union or annexation with the United States.

Mr. Langley said: "I have long been personally acquainted with Mr. Wiman and have had many confidential interviews with him on the question as to how closely commercial relations could be established with the United States. As regards myself I believe the ultimate destiny of Canada is imperial federation or annexation to the United States. This, however, has nothing to do with Mr. Wiman's motives or opinions."

"I know that he opposes political union, and when he is charged with any such motives I may point out the fact that, although residing in the United States, he has proved his loyalty to Canada by remaining a British subject. It is true that he seeks to establish the closest possible trade relations between the two countries, and as the most likely expedient to accomplish this end suggests commercial union as in the best interests of the Dominion."

In regard to Senator Sherman's scheme, by which he proposes to settle all social, trade and political differences between the two countries, Mr. Langley said:

"Senator Sherman has struck the right chord, and from the temperate way in which he puts his case will accomplish much more in attracting the people of Canada than by attempting to bulldoze or coerce them, as unfortunately has been the case with several other American statesmen. These Canadians who are interested in the fishing industries, I am positive, from my intimate knowledge of the maritime provinces, would gladly concede to American fishermen all the privileges they desire in our waters, if in return the United States offered us corresponding trade advantages."

"I am strongly in favor of an unrestricted commercial trade policy between Canada and the United States, and am sure the Canadian people would gladly accept any offer in that direction which might come from the authorities at Washington. Of course, any movement in that direction strikes a telling blow at the trade policy of Sir John Macdonald's government. He is trying to check this appeal to the sentiment of the people, saying that it means disloyalty to England and ultimate annexation to the United States."

Sherman's Letter to Wiman.

TORONTO, Oct. 6.—Mr. Erastus Wiman makes public a letter from Hon. John Sherman, in reply to one in which Mr. Wiman favored commercial union. Under date of October 3, Mr. Sherman writes:

"My own opinion has been for many years that political union between the United States and Canada was inevitable, and that statesmen and patriots might look to bringing this about peacefully upon terms of perfect equality, so as to promote the interests of both countries. As to commercial union, I see no practical way to bring it about. We will have ample time to think of this, as the subject matter will not again be brought up in the senate until next session."

A Great Irrigation Scheme.

NEW YORK, Oct. 6.—A special to the World from El Paso, Tex., says: A movement is on foot here to construct a monster dam sixty feet high, in a pass a few miles above El Paso, so as to form a great reservoir, in which the waters of the Rio Grande will be stored up for irrigating the valley for fifty miles below the city. This would submerge about fifty thousand acres of land, scarcely an acre of which is at present cultivated. At a public meeting of citizens last night committees were appointed to raise a fund to bring a competent engineer here to investigate and report on the feasibility of the plan.

An Aluminum Plant.

NEWPORT, Ky., Oct. 6.—A company has been organized in this city for the producing of chemical pure aluminum by a cheap, patent process, the first of the kind in this country. The company is composed of prominent steel and iron men, who are sanguine that this new process will revolutionize the manufacture of steel as now conducted. They are putting up a twenty-ton furnace for making aluminum.

Blaine Is Ill.

DETROIT, Oct. 6.—Mr. Blaine is ill at Gen. Alger's residence here. His ailment is apparently only a severe hoarseness, consequent upon his efforts in the open air yesterday, which renders articulation difficult. He was unable to keep his appointment at Saginaw. Mr. Walter Blaine states that it is improbable his father will attempt to resume speech-making prior to the Grand Rapids meeting on Monday.

Long Distance Telephoning.

PORTLAND, Me., Oct. 6.—Long distance telephone connection was successfully accomplished Thursday between Portland and Philadelphia, via Boston, Providence and New York. Providence works as distinct as any short distance line; New York quite clear; Philadelphia more muffled. These connections will be permanent.

Virginia Tobacco Injured.

NEW YORK, Oct. 6.—The World's Petersburg, Va., special says: Information has been received here, that the damage by frost to the tobacco crop in the south side section of Virginia is very great, and that more than one-fourth of the crop has been completely ruined.

"OLD HUTCH'S" HISTORY.

How From a Poor Yankee Boy He Became a Chicago Broker.

CHICAGO, Oct. 6.—Until to-day remarkably little has been generally known regarding the early life of B. P. Hutchinson, whose manipulations in the wheat market are the wonder of many people. This morning the story of his career is told in detail. "Old Hutch" is a New England Yankee. He began his business career in the little village of North Reading, N. H., about forty-six years ago, when he entered the employ of a man named Edwin Foster, who kept a country store. Here he was paid \$30 a year to look after the store, and when not so employed to mend children's shoes in the rear of the store.

Mr. Foster employed another, and in the store, to whom he gave \$30 a year. Ben did not like this distinction in salaries and rebelled against it. The other boy was paid \$10 more a year because he could "read hand writing," and was therefore more valuable to his employer than Ben. Finally Ben obtained permission from Mr. Foster to use a part of an old shed, which he built into a kind of store with patched up door on the side and an old window in front, whereupon was inscribed: "Ben. Hutchinson, Boots and Shoes." Here young Ben made boots and shoes on his own account.

Every Saturday he would go to Lynn on foot and buy stock and sell the shoes he had made. He employed several boys about the neighborhood to assist him. When he returned from Lynn he always brought some "jinnicks" with him, which he would trade off to the boys, and although he paid them money for their work on Saturday, by Monday he managed to get it all back in trading with them. Ben was a natural trader. After a while he got tired of his small business and decided to go into business in Lynn on a larger scale.

While in Lynn he discovered that some men in the commission business were making more money than he was without doing any hard work; so he concluded to give up the manufacture of shoes and go into the commission business, which he did in 1850 on Pearl street, Boston. After remaining there two years he went to Milwaukee, where he started in general business. Finally, some years later, he moved to Chicago and engaged in wheat commission trading. Benjamin P. Hutchinson is now in Chicago, worth millions. The other lad employed by Foster is still hard at work managing the United States hotel in Boston. He is known all over the state as a generous, genial gentleman, and his name is Tilly Haynes.

Vermont's Governor Inaugurated.

MONTPELIER, Vt., Oct. 6.—Governor Dillingham was sworn into office this afternoon and delivered his inaugural address to the assembly. In his remarks he called attention to defects in the laws regulating savings banks, and urged the need of greater safeguards against injudicious investments by directors. He recommended that the attention of capital be called to the extensive natural resources still undeveloped in this state. He advised that the principles of the interstate commerce law be incorporated into the statutes of the state. The governor thinks the present prohibitory law a strong one, but that improvement in case of its violation should be provided for.

Survivor in Dakota.

ST. PAUL, Oct. 6.—A horrible story of widespread destitution comes from Ramsey county, Dakota, where the entire population is on the brink of starvation. Mayor Smith received to day an appeal signed by county officials and prominent citizens of Ramsey, urging the people of St. Paul to take steps at once to alleviate the distress existing in the county. The appeal for aid is accompanied by a statement to the effect that recent frosts destroyed thousands of bushels of wheat, and left destitute their residents in all but one of the townships in the county. Application has been made to the county authorities for assistance, but it has been discovered that the want is so great that it would financially ruin the county to attempt to alleviate it.

MONTREAL'S DEBT.

A Plan to Have It Assumed By British Capitalists.

MONTREAL, Que., Oct. 6.—The Hon. J. B. C. Abbott, leader of the Canadian government in the senate and mayor of Montreal, sails from New York this week for England by the German line steamer Gellert, on a mission to attempt the conversion of the debt of the city of Montreal. He is accompanied by Alderman Jacques Grenier, chairman of the finance committee, and Comptroller Robb. Their proposal is to meet, in London, bonds of the city of Montreal to the amount of \$1,250,000, or \$850,000 bearing three and a half percentage. Of this amount \$1,000,000 is to provide for the existing floating debt, \$250,000 to provide for the redemption of bonds and \$300,337 to repay bonds maturing in 1890. The balance is to be used for purposes of civic improvements. An attempt will also be made to reduce the interest on the remainder of the debt from 4 and 5 to 3 per cent, but this of course depends on the willingness of the bondholders.

DAILY EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & MCCARTHY,
 Proprietors.

SATURDAY EVE., OCT. 6, 1888.

Favoring the Rich.

The Republican party believes in favoring wealth.

It repealed the tax on domestic manufacturing which was \$127,000,000 a year. It repealed the income tax which brought to the treasury \$72,000,000 annually.

It repealed the taxes on the receipts of railroads, insurance companies and express companies.

It repealed the tax on the capital of banks, on bank deposits and on bank checks.

It repealed the taxes on the wealth of the country and permits it to escape paying its just part of the national debt, but it left the taxes on the poor man's blanket and the clothing that his children wear, and it is now putting forth every effort to keep up the taxes on the necessities of life.

That party is also insisting that the taxes should be taken off of whisky and tobacco and left on wool and provisions.

It is urging the question of free whisky and tobacco, while the Democratic party is urging free wool and cheaper food and clothing for the people.

Can there be a doubt as to which is right?

The Republican party has been the rich man's friend and the poor man's oppressor. Remember this when you come to vote.

"Talk's Cheap, but Money Counts."

A prominent city official has put up \$400 to \$300 that Cleveland will be elected. A Republican from Washington precinct backs Harrison.

A prominent citizen of the Germantown neighborhood has bet \$400 even with the Washington man referred to above that Cleveland will carry four Northern States outside of Delaware.

A young physician of this city has made several small bets on Cleveland—one of \$100 to \$50 and another of \$100 to \$75.

An official of this city is ready to put up \$1,000 to \$1,000 on Cleveland and Thurman.

It is true that the Republican high tariff does not tax the wages of workingmen, but it does tax all that their wages will buy. It thus reduces the purchasing power of the little money that is left at the end of the week or month; for every article that enters into their expenditures from the potatoes, taxed specifically 15 cents a bushel, to the salt, at over 50 percent, ad valorem, and from the rent of their houses, which is enhanced by the tax on lumber, to the blankets that give them comfort in the winter nights. It is the purpose of the Democrats to change this order of things. If you want to see it done you will aid that party by your vote.

The Congressional Campaign.

Go to the court house to-night and hear Hon. T. F. Hallam.

Hon. Thomas H. Paynter will speak at Mayslick to-night. Everybody is invited.

A meeting of the Bandana Club is called for this evening at 7 o'clock. Let every member be on hand.

The Republicans advertise a big rally at Brooksville, October 19th. Colonels Bradley and Burchett will be the orators.

The members of the Democratic Executive Committee are called to meet at the County Clerk's office next Monday at 1 p. m. Business of importance.

Don't fail to hear Hon. T. F. Hallam at the court house to-night. He is one of the most entertaining and eloquent speakers on the stump and never fails to interest a crowd.

The eloquent Irish orator, Hon. John P. Newman, of Newport, will be here next Monday, and address the people at the court house in the afternoon. He has represented Campbell County in the Legislature where he has always proved a staunch advocate of the interests of the working people. He is an interesting speaker and should be heard by all. Captain Blackburn, a brother of the Senator, may be on hand also.

There are eleven more Democratic clubs in this Congressional district than in any other district in the State. The party is better organized than ever before, and Colonel John F. Hager thinks there is hardly a doubt that the district will be redeemed in November. There is no doubt as to this if every Democrat will do his duty. Make up your mind to vote and see that your neighbor does likewise.

Notice to Democratic Executives of Committee.

A meeting of the Democratic Executive Committee of Mason County will be held at the County Clerk's office next Monday, Oct. 8th, at 1 p. m., promptly. All members are urged to be present. Business of importance.

THOMAS J. CHENOWETH, Ch'm.
 CHARLES B. POYNTEZ, Sec'y.

Jerry Anderson Paroled.

Notice to Tax-payers.

The tax-payers of Mason County are hereby notified that the penalty of 6 percent. will be added to all taxes not paid by the 1st day of November.

JAMES M. FAIRLIE, Corresponding Sec'y.

Public Speaking.

Hon. T. F. Hallam will address the citizens of Maysville and vicinity at the court house to-night (Saturday) at 7 o'clock. He will divide time with any Republican orator, and our Republican friends are cordially invited to be present. The ladies will be welcomed, and many have promised to attend.

The Folsom Club, of Chester, Leedom Club of Aberdeen, and members of all the Democratic clubs of this county are expected, and will be the guests of the Bandana club. Everybody invited. Music in the air.

Unique Minstrelsy.

You want to see Al G. Field's Operatic Minstrels at the opera house next Monday night. Something new in that line. They were at Parkersburg, W. Va., last Tuesday night. The State Journal, of that place, says:

Al G. Field is a success in everything he undertakes, but his latest triumph is his greatest. He has taken the minstrel show on 'of the well worn groove in which it has been running for so long has given it an entirely new position in the theatrical world. His company of operatic minstrels held the boards last night at the Academy of Music, delighting and captivating a large audience. * * * Taking it in its entirety, there has never been a greater minstrel success at the Academy of Music, than that last night. It was a clean show, and was greatly enjoyed by the large number of ladies in the audience.

COLEMAN, S. C., July 7, 1888—The Swift Specific Co., Atlanta, Ga.—Gentlemen: I was a great sufferer from malarial rheumatism for two years. I could get no permanent relief from any medicine prescribed by any physician. I took over a dozen bottles of your S. S., and now I am as well as I ever was in my life. I am sure your medicine cured me, and I would recommend it to any one suffering from any blood disease. Yours truly,
 O. E. HENRIS,
 Conductor C. & G. R. R.

WACO, TEXAS, May 9, 1888—Gentlemen: The wife of one of my customers was terribly afflicted with a hideous skin disease, that covered her whole body. She was confined to her bed for several years by this affliction, and could not help herself at all. She could not stand a violent itching and stinging of the skin. The disease baffled the skill of the physicians who treated it. Her husband began finally giving her Swift's Specific, and she commenced to improve almost immediately, and in a few weeks she was apparently well. She is now a hearty, fine-looking lady, with no trace of the affliction left. Yours very truly,
 J. E. SEARS,
 Wholesale Druggist, Austin Avenue.

SIGNIFICANT.

EMPEROR WILLIAM'S RECEPTION TO PRINCE PHILIP OF COBURG

BELIEVED TO INDICATE A NEW PHASE IN BULGARIAN AFFAIRS.

The Members of the Russian Embassy Promptly Inform the czar—No Clew Yet Discovered to the Whitechapel Murderer—The American Released—Bismarck Again Threatens Resignation.

VIENNA, Oct. 6.—The reception which Emperor William accorded Prince Philip of Coburg, on the afternoon of his arrival at Vienna, has occasioned no little talk, and in political circles is deemed a significant action on the part of Germany's ruler. Prince Philip is the eldest brother of Prince Ferdinand, of Bulgaria, and a member of the hated Coburg family, and that the kaiser should bestow an especial mark of attention upon a Coburger is considered by the knowing ones to betoken a new phase in the affairs of Bulgaria. The fact was duly noticed by members of the Russian embassy and information concerning it properly sent to St. Petersburg.

A high official referring to the incident, said that it was not unlikely that Emperor William appreciated the fact that Ferdinand had given a fair and quiet reign to Bulgaria, and believed that his occupation of the throne towards the peace of Europe and the welfare of the people over whom he was placed, and that if the kaiser could do so, without reopening the eastern question and disturbing existing peace, he would use his power to keep Prince Ferdinand on the Bulgarian throne.

If the young emperor could effect this without offending his northern neighbor, the dream of the aged Princess Clementine, Ferdinand's mother, would be realized, and the Coburgers would remain unmolested in possession of Bulgaria. With the patronage of Germany and the assured aid of Austria, Ferdinand might well feel secure even though the Russian bear did growl and the sick man of Turkey made faces at the intruder of his borders. The absence of the Russian ambassador from Emperor William's reception to the diplomats last night is widely commented upon, and many profess to find a reason for the ambassador's action in the cordiality that the kaiser has shown to Prince Philip.

Emperors Toasting Each Other.

VIENNA, Oct. 6.—In proposing the toast to the German emperor Thursday evening, the Emperor Francis Joseph said:

"It is with feelings of hearty, firm and indissoluble friendship for the alliance which unites us for the benefit of our people, that I drink to the health of our imperial guest. May the Almighty guide him in the path in which he has entered with youthful strength and manly wisdom and resolution. Long live his majesty, the emperor, and the members of the royal house."

The monarchs then touched their glasses. After the playing of the Russian anthem by the imperial band, Emperor William in reply said: "I return to your majesty from the bosom of my heart the sincerest thanks for your gracious words and it affords me special pleasure to be able to do this on your name day. Not as a stranger have I come here, since I have for many years been an object of your majesty's kindness. I am now executing the sacred command of my grandfather, now resting with God. Inspired by feelings called forth by our proud and inviolable friendship, I drink to the welfare of my highly esteemed ally, the members of his house, and the Austrian people."

Emperor Francis Joseph then toasted the German army, after which Emperor William toasted the Austro-Hungarian army. Both toasts were drunk with the utmost enthusiasm. After the dinner Emperor Francis Joseph and the Empress Elizabeth held a reception in the small ball room, the Strauss band playing during the entertainment. Later all took tea with Arch Duke Charles Louis.

No Clew Yet.

LONDON, Oct. 6.—Thursday's inquest on the body of the Mitre square victim revealed no clew as to the murderer. It was merely determined that he had walked for some distance with the woman along the street. Fearful lest some one may have seen him with her, he mutilated her face, so that she might not be identified and thus furnish some clew to his identity.

All thus far arrested on suspicion, including the American taken Wednesday night, have been released. The latter was a mere case of drunken folly. The coroner's theory, too, of a foreign physician's offer of a large price for organs of the human body for purposes of scientific inquiry, has been thoroughly investigated and exploded. It turns out to have been an eminent physician, and occurred a year ago. No large sum was offered, either, as reported. Fifty armed workmen patrol the streets of the Whitechapel district.

Sir Charles Warren, commissioner of the Metropolitan police, has decided to adopt one of the many suggestions offered in reference to the Whitechapel murders and employ bloodhounds in the district frequented by the murderer to aid in the search for him.

The police have adopted the story that the sailor George Dodge, relates about the Malay cook, who, as a revenge for being robbed by a woman, with whom he had consorted, threatened to murder and mutilate every Whitechapel woman until he found the guilty one. Acting upon this clew, the police are hunting everywhere for the Malay.

Aeronaut Baldwin's Close Call.

LONDON, Oct. 6.—Baldwin and his parachute came to grief Thursday evening at the Alexandria palace. The wind was strong and gusty and the balloon, which was being held down by sand bags, struggled to get free. Baldwin, at an apparently favorable moment, gave the command let go. On this occasion he baulked his ascent, owing to one of the men not getting the sand bag off which he had charge free at the instant of command. The result was that the balloon was carried straight towards a huge oak tree close to the wooden palings. For a moment it seemed as if the aeronaut, should he escape being dashed against the palings, would be brought to grief by a contact of tremendous violence with the tree. He jumped from the balloon and fell on the grass inside the inclosure, hurting his left wrist seriously. He was cheered heartily by the spectators. His drop was fifty feet.

Lost in the Caucasus Mountains.

LONDON, Oct. 6.—Harry Fox, a landed proprietor of Somerset and a noted foot-ball player, was lost while traveling in the Caucasus mountains. A party of guides is also missing.

The Prince of Wales at Bucharest.

BUCHAREST, Oct. 6.—The city was en fête Thursday in honor of the arrival of the prince of Wales. The king, accompanied by a large party of distinguished persons, received the prince at the railroad station. The streets were thronged with people, who gave the royal visitor a hearty welcome. The prince accompanied the king to the opening of the new water works, and afterward went to the Castle Pelesh to visit the queen.

Bismarck Again Threatens to Resign.

BERLIN, Oct. 6.—The Tagblatt says it learns that Emperor William disagreed with Prince Bismarck as to the advisability of criminally prosecuting Professor Gellcken, and that he was also displeased with Bismarck's report on the affair. The chancellor, the Tagblatt says, threatened to resign if the course suggested by him was not followed.

Rebels Repulsed.

LONDON, Oct. 6.—Advices from Suakin state that the rebels made an attack on that place Tuesday night, but were repulsed by the heavy fire of the British troops.

If You Are Sick

With Headache, Neuralgia, Rheumatism, Dyspepsia, Biliousness, Blood Humors, Kidney Disease, Constipation, Female Troubles, Fever and Ague, Sleeplessness, Partial Paralysis, or Nervous Prostration, use Paine's Celery Compound and be cured. In each of these the cause is mental or physical overwork, anxiety, exposure or malaria, the effect of which is to weaken the nervous system, resulting in one of these diseases. Remove the cause with that great Nerve Tonic, and the result will disappear.

Paine's Celery Compound

JAS. L. BOWEN, Springfield, Mass., writes:—Paine's Celery Compound cannot be excelled as a Nerve Tonic. In my case a single bottle wrought a great change. My nervousness entirely disappeared, and with it the resulting affection of the stomach, heart and liver, and the whole tone of the system was wonderfully invigorated. I tell my friends, if sick as I have been, Paine's Celery Compound.
